"Ms. Frederika in pharmacy went above and beyond to help a Urology Clinic patient. The patient started the regimen at a civilian facility which could not obtain the medication. With very little time available before the next treatment was due, Ms. Frederika coordinated with another MTF and obtained enough of the medication to complete the patient's treatments. She went out of her way to keep us in the loop and follow up to make sure the patient had everything he needed. The Urology Service appreciates the extra effort put forth by Ms. Frederika. It is refreshing to encounter an employee who really possesses great pride in their work and dedication to our patients."
